CHILDREN'S DVD AND ADULT PAPERBACK COLLECTIONS HAVE MOVED

All DVDs from the Children's Department have been moved to the basement to join the rest of our video collection. You'll find the children's DVDs on the north wall of the basement, just before the foreign DVDs. We've also created a "Family Feature" collection, drawn from appropriate DVDs in the adult and children's collections. Have a look!

Our adult paperback fiction collection has also relocated. Formerly housed on the spinning racks in the Young Adult area, the collection is now shelved at the beginning of the fiction stacks.

Visiting Professor: Astronomer Shane Larson on Eclipses

Sponsored by the Friends of the Glencoe Public Library

Thursday, June 22, at 7:30 p.m.

On August 21, for the first time in 99 years, a total solar eclipse will be visible coast-to-coast across the United States. Its "path of totality" will be about 70 miles wide, stretching from Oregon to South Carolina. It is also the first total solar eclipse visible in any part of the U.S. since 1979.

Be ready for this once-in-a-lifetime treat with a program on eclipses by Dr. Shane Larson, research associate professor of physics at Northwestern University and an astronomer at the Adler Planetarium in Chicago. Dr. Larson works in the field of gravitational wave astrophysics, specializing in studies of compact stars, binaries, and the galaxy. He is an award-winning teacher and a fellow of the American Physical Society.

In 1942, the U.S. sent 109,000 residents of Japanese ancestry to detention centers. Strangely, this human rights tragedy was richly documented by acclaimed, government-hired photographers. Their images—many of them never before seen—were combined with firsthand survivor recollections by photo historians Richard Cahan and Michael Williams in their book *Un-American: The Incarceration of Japanese Americans During World War II: Images by Dorothea Lange, Ansel Adams, and Other Government Photographers* (CityFiles Press, 2016). Mr. Cahan will share images and passages from *Un-American* and sign copies, which will be available for sale at the event.

The Art Institute of Chicago will mount a major new exhibition on Paul Gauguin June 25–September 10. It is the first show to examine the artist’s radical experiments in the applied arts, underscoring his achievements not only as a painter but also as a sculptor, printmaker, and decorator. After its Chicago debut, the exhibition travels to the Grand Palais in Paris. Please join us as Glencoe resident Allison Perelman, a research associate at the Art Institute of Chicago who has worked on the exhibition since its inception five years ago, discusses the important themes and artworks of the show and how they were brought to life in the galleries.

WOMEN WHO READ ARE DANGEROUS: LITERARY LADIES IN THE AGE OF IMPRESSIONISM

Thursday, July 27, at 7:30 p.m.

The idea of a woman reading Flaubert’s masterpiece *Madame Bovary* in nineteenth century France was scandalous. Ladies were not supposed to enjoy the latest novel — it might give them radical thoughts! Tish Robinson presents the intriguing, often humorous history of “la liseuse” (the female reader), illustrated with paintings by the Impressionists and their colleagues.

On March 13, 1964, Kitty Genovese was attacked on a street in Kew Gardens, Queens. Days later, the New York Times reported that 38 people had witnessed the murder from apartment windows and had done nothing to help. Was Kitty Genovese a victim of urban apathy as much as a brutal crime? In this fascinating documentary, her brother seeks to find the truth to an incident that so marked his life and defined a city.

LIFE ANIMATED

Nominated for Best Documentary Feature at the 2017 Academy Awards, *Life Animated* is the inspiring story of Owen Suskind. "There are moments of joy, revelation, connection, sadness and hope, and the film is very, very moving." — Tom Long, *Detroit News*.

89 minutes. Rated PG.

BARBARA

Monday, August 21, at 1:00 and 7:00 p.m.

Fans of *The Lives of Others* should find *Barbara* an equally compelling story about life in East Germany in the 1980s under the controlling and ever-watchful eyes of the Stasi. A young doctor transferred from a prestigious Berlin hospital to a small country pediatric center must weigh her loyalty to her patients against her plan to secretly flee the country.

105 minutes. Rated PG-13.
