Tech Help is on the Way — Teen Tech Program

If you ever get frustrated with your device, want to learn more about using the Internet or apps, or just want to increase your overall technology knowledge, this is the program for you! Starting this fall, you'll have the opportunity to bring your devices — smart phones, iPads, Kindles, tablets, or others — to the library and have a one-on-one sit down with one of our teen volunteers! Whether you come with a technology question in mind or need a guided tour of your device, one of our tech-savvy library staff members also will be on hand to help with anything the "born digital" generation cannot. When you bring your device, please have username and password handy. Exact dates and times will soon be available at the Reference Desk.

Interested teens, please email the library at childrens@glencoeilibrary.org, with the subject line "Teen Tech."

FINAL LECTURES ON FRANK LLOYD WRIGHT

Don't miss these last two programs in the Glencoe Ravine Bluffs Centennial celebration! The library will close at 4:00 p.m. on each day and re-open at 4:30 for program seating. Co-sponsored with the Glencoe Historical Society.

RAVINE BLUFFS AND BEYOND

Sunday, October 25, 5:00 p.m.

Glencoe's Ravine Bluffs subdivision epitomized Wright's Prairie style, but by the 1930s the architect was establishing a second wave of influence. He developed the "Usonian" model for affordable housing and, along with Mies van der Rohe, became one of the forces to shape modern residential architecture in Chicago. Showing several never-seen-before photos, prominent architectural historian Susan Benjamin will present Wright's story and explain his influence on architecture after he designed Ravine Bluffs.

A LEGACY FOR GLENCOE

Sunday, November 1, 5:00 p.m.

One of the highlights of the Ravine Bluffs Centennial celebration is the Glencoe Historical Society's plan to rebuild the Frank Lloyd Wright-designed waiting station, originally located just north of Maple Hill Road, and to develop the adjacent park in the style and spirit of Jens Jensen, who designed many of Glencoe's parks. At this program, GHS members will discuss the collaboration among Wright, Jensen, and Sherman Booth (the founder of Ravine Bluffs) and also unveil plans for the station and the park.

Technology Tuesdays

It seems like there are new ways to "cut the cable cord" every month, with Showtime, HBO and ESPN all offering new services that don't require cable subscriptions. In our September **Streaming Video** class, we'll take a look at all the currently available options for services and devices, as well as the library's Hoopla service. Next, Apple is rolling out new versions of its operating systems for iPhones/iPads and Macs and they offer some great new features. Come to our **Meet iOS9 and OSX El Capitan** and get a look at them in action! Next, did you know that Pinterest is the third most popular social network? Learn about how to take advantage of all of its features for business and hobbying at our **Pinterest** class. Finally, our **Holiday Technology Spectacular** returns in December to give you ideas on great techie Christmas and Hanukkah gifts and apps for your friends, your family, and yourself!

Technology Tuesdays is open to all ages and skills, although a basic knowledge of computers (how to use a mouse and keyboard, how to get on the Internet) is required. Each class is taught by Mike Gershbein and lasts one hour.

Library Staff News

MEET ATHENS MORENO

Athens Moreno

It's an honor to be welcomed here at the Glencoe Public Library. Instantly upon joining the staff in July of 2015, I witnessed numerous above-and-beyond customer service moments that have become a tradition here at the library. I am eager to continue and add to that tradition that has become a model for other libraries to replicate.

My public library experience so far spans 13 years. I have worked in both adult and youth divisions, serving communities such as Skokie, Elgin, and Highland Park. I live in the Park Ridge area, where my hobbies consist of traveling, cooking, and anything basketball related. I am a huge sports fan; I play in local leagues and coach junior high school-aged kids. As the new Network Administrator for Glencoe Public Library, I look forward to contributing to the operation of the library, as well as engaging with the community through instructional offerings.
