She'll share the secrets to her success in raising Monarchs, Swallowtails and Red Admiral butterflies in her yard in Park Ridge. This program is a collaboration among the Friends of the Green Bay Trail, the North Shore Garden Club, and the Glencoe Public Library.

LIFE ITSELF

Monday, March 16, at 1:00 and 7:00 p.m.

Acclaimed documentarian Steve James (*Hoop Dreams, The Interrupters*) brings Roger Ebert's memoir to the place where it most appropriately belongs — a movie screen. *Life Itself* touches upon Ebert's long and award-winning career in film criticism, his oft-contentious relationship with Gene Siskel, and the challenges of his final years. "*Life Itself* is a joy. It celebrates colorful characters, an indomitable spirit and a generous mind." — Joe Neumaier, *New York Daily News*.

STILL ALICE

When she receives a diagnosis of early-onset Alzheimer's disease, Alice and her family find their bonds thoroughly tested. Julianne Moore, Academy Award nominee for Best Actress, stars as Alice.

99 minutes. Rated PG-13.

LAST DAYS IN VIETNAM

Monday, May 18, at 1:00 and 7:00 p.m.

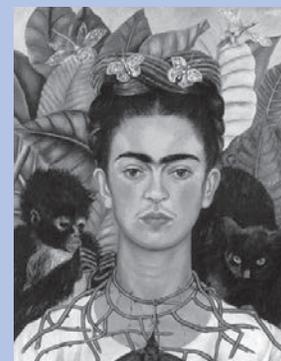

During the chaotic final days of the Vietnam War, the North Vietnamese Army closed in on Saigon as the panicked South Vietnamese people desperately attempted to escape. On the ground, American soldiers and diplomats confronted a moral quandary: whether to obey White House orders to evacuate only U.S. citizens or to risk being charged with treason and save the lives of as many South Vietnamese citizens as they could. "Archived film of the final, chaotic push to clear the embassy compound by helicopter is as dramatic as any thriller, heightened by stories of bravery and risk." — Linda Barnard, *Toronto Star*.

98 minutes. Not rated.

THE ART OF FRIDA KAHLO AND DIEGO RIVERA

Wednesday, March 25, at 7:00 p.m.

The sensational marriage of Mexican artists Frida Kahlo and Diego Rivera fascinated their contemporaries in the United States and south of the border. In this slide lecture, art historian Jeff Mishur looks at the paintings of both artists and discusses how key moments in their private life are brought to life in specific works.

Library Staff News

Jenny Hargrave

MEET JENNY HARGRAVE

In August, I was lucky enough to be hired on as a children's associate at the Glencoe library. I have loved every moment of it. Libraries have always been a part of my life, and since my teenage years, I have spent lots of time volunteering and working in libraries.

I have two BFAs and a minor from the University of Illinois—one in painting, one in new media, and one in art history—and I am so glad that I get to share what I've learned with the kids of Glencoe. Clearly, given that I couldn't make a choice of only one major, I love to learn about everything—from cats and dogs to vegan baking to gardening. What I really like to focus on, however, is technology and art. I am so excited to get to bring STEM-based programs to the patrons of the library. I'm still deciding if I want to get a master of library sciences degree, but right now I am happy to be getting exposure at the Glencoe library.

Of course, I love to read. Some of my favorite genres are fantasy and sci-fi, as well as weird (sur)realist novels. I also enjoy spending time on the web, cooking for my friends, playing with my cat, watching cartoons, running (when the weather is nice), listening to music, and working on my art. In addition to working at the library, I work at a couple of indie video game studios in the city and as a painting instructor.

So next time you are in the library, stop by the Children's Department to say hello! I always love to chat or help you find some books. I hope I will see you at a program sometime soon!
